“Changing the Conversation!”

*On Point * On Purpose * In Practice*

The Imperfect Messenger Foundation applauds the People of Missouri as they “Stand4” the Unalienable Rights of Sovereign Individuals across the U.S.!

Santa Rosa, Ca – July 30, 2010 (TIMF) – Despite the overwhelming opposition to “Obamacare”, the Democratic-Controlled Congress ignored the will of the people and drove yet another nail in the coffin containing the once sacred Constitutional Prohibitions integral to the Nations representative form of government. With the precision of a well oiled machine, the government orchestrated a most elaborate platform complete with specious notions such as “deficit neutral” fiscal impact. As the months have passed the Nation continues to uncover the stunning abuses and misrepresentation made by their representatives adding to the growing regiments of governments overwhelming failures and habitual breach of the People’s sacred trust.

While other States seeming willing to only approach the matter by way of litigation, Missourians are expressing the spirit implicit in The Declaration of Independence by taking action. August 3, 2010 marks the day that Missourian speak for a Nation silenced by a system that has become deaf to the voice of Americans and intoxicated by the hubris of self-serving entitlement. The Missouri Legislature listened to their People and passed *The Health Care Freedom Act* which leaves the ultimate choice – Propositions C - up to the People of Missouri – just as the Founders of this Country intended.

The Imperfect Messenger Foundation unilaterally and unconditionally supports this Proposition and the efforts of a Courageous People and their State Legislators willing to “Stand4” the ideals of all Americans whose Sovereign Rights orphaned by system that no longer feels compelled to represent the will of the concenting governed. It is our hope that this process is just the first “... shot heard round the...” Nation as the People begin a new battle, a new War For Independence!

“Who Is” The Imperfect Messenger Foundation?

Founded by Curtis C. Greco, Author (“*We Hold These Truths*”, “*Value Given, Value Received*” and “*Valor in Prosperity*”), Speaker and Social Commentator, with a dedicated mission to advance and invite original and provocatively inspired thought and discourse relating to a variety of Individual, Political and Economic issues of the day, viewing each through the filter of Thomas Jefferson’s “We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain unalienable rights, that among these are Life, Liberty and the Pursuit of Happiness.”

“Man must be *Free for Independence* to be at *Liberty* to be expressed!” C. Greco
